HD 2014 Automatic PVC Glazing Bead Saw (Universal) with Digital Measurement System

- Robust mechanical structure suitable for high speed
- Used without mold
- Dual-profiles are cut simultaneously
- Precision cutting at 45° angle on both sides
- Pneumatic clamping pistons
- Automatic cutting measurement system
- Profile support stand from the left

HD 2014 Automatic PVC Glazing Bead Saw (Universal) with Digital Measurement System

Design

- Mechanical structure capable of cutting PVC profiles at high speed and quality
- Mold-free usage
- Dual-profile cut simultaneously
- Precise cutting at 45° angle on both sides
- Pneumatic clamping pistons
- Practical adjustment of the rotary mechanical stop group
- Left profile support table
- Automatic cutting measurement system

Control Panel

- 7" touch screen
- Windows-based, user-friendly Kaban interface with easily adjustable parametric structure
- Compatibility with 3rd party software
- Mitsubishi PLC control system
- Data transfer via memory card
- Storing 1000 different cut sizes in memory
- Wireless measurement transfer to a machine 100 m away via radiofrequency signal
- Ethernet connection

Saw

- Two Ø 200 mm saws
- Two 45° Ø 95 mm saws
- Saw speed at 3500 RPM

Safety

- Safety labels
